

## **Networking by Numbers**

We know it can be difficult to find people in a crowded room; to help with this we have introduced a fun and easy way to identify each other: **NETWORKING BY NUMBERS!**

You will see in the printed guest list that by each name there is a number. When guests register they will be given their usual name badge, in addition to this they will receive a sticker with their unique networking number on it. If you have highlighted someone you particularly want to meet then just find out their number from the guest list and match it to the person.

If you can't find who you are looking for then visit the Registration Desk and a member of the LCCI team will be on hand to help you with your search.
